Features like these have made Tornado the Industry Standard!

The patented, split bearing allows quick maintenance and high performance.

Patented rubber cushion, player, and rod guarantee super-fast, durable play.

Precision ground balls provide the smoothest and most accurate play available.

Fast, easy scorekeeper shows the game status at a glance.

Easy-adjusting leg levelers and solid legs for stability and fast setup.

Comfortable, eight sided wood handle provides maximum playability. The improved rod is now heat treated, precision ground and Hard Chrome plated for the ultimate in smoothness, low maintenance and speed.

A moisture barrier is installed on the back side of the playfield to prevent warpage.
